GOODENOUGH COLLEGE, LONDON

10.30 **Registration and Refreshments**

11:00 **Findings from Liveable Cities**

Presentations to provide an overview of the programme's findings: Ecosystem Serviced City in Birmingham, City Analysis Methodology applied to Birmingham, Wellbeing in Birmingham and other case study cities, and Rezoned City in Southampton.

Nick Grayson, University of Birmingham and Birmingham City Council

Professor Chris Rogers, University of Birmingham

Professor Rachel Cooper and Dr Christopher Boyko, Lancaster University

Professor Patrick James, University of Southampton

12.30 **Lunch**

13.30 **Telling the Story of Liveable Cities**

Presentation of the Overarching Liveable Cities White Paper

Professor Jeremy Myerson, Royal College of Art

Discussion session on:

- **How would you use the Liveable Cities findings?**
- **What are your take aways?**
- **What might you do but can't, so how might what we have done help you to do this?**
- **What else do you need for it to be truly useful?**

Professor Chris Rogers, University of Birmingham

Professor Rachel Cooper, Lancaster University

Professor Nick Tyler, University College London

15.15 **Wrap up**

Professor Chris Rogers, University of Birmingham,

Principal Investigator of the Liveable Cities research programme

15.30 **Close**

We do hope you enjoy this event and are able to join us for our next Bi-Annual Summit (2017 date TBD) in Birmingham.
